### MISSION

As the Office of Inspector General for the U.S. Department of Housing and Urban Development (HUD), we remain an independent and objective organization, conducting and supervising audits, evaluations, and investigations relating to the Department’s programs and operations. We promote economy, efficiency, and effectiveness in these programs and operations as we also prevent and detect fraud, abuse, and mismanagement. We are committed to keeping the HUD Secretary, Congress, and our stakeholders fully and currently informed about problems and deficiencies and the necessity for and progress of corrective action.

## INTRODUCTION

The work of the Office of Inspector General (OIG) is important to the Department's success in fulfilling its Strategic Plan to address the Secretary's mission priorities, management challenges, and mission-related goals. We must ensure that our resources and activities encompass the issues and concerns most critical to the Department. This Annual Performance Plan identifies the Fiscal Year (FY) 2018 goals, objectives, and measures that will help us better execute the U.S. Department of Housing and Urban Development's (HUD's) priorities and continue to assist the Department in identifying and taking corrective action to improve areas most vulnerable to waste, fraud, and mismanagement.

This Annual Performance Plan describes the specific projects and activities that we plan to undertake during FY 2018 to identify opportunities for cost savings and operational efficiencies; focus on prevention; and return hard dollars to the Department and the U.S. Treasury. This Annual Performance Plan contains the complete set of measures that the OIG will use to manage the organization towards accomplishing its goals and objectives. Those activities generate products – outputs, typically audit and evaluation findings, and criminal indictments. The outputs are provided to other organizations (e.g., department program officials or prosecutors) for disposition. We collaborate with these partners to achieve successful intermediate outcomes like civil actions, successful prosecutions, or administrative actions such as suspensions and debarments. Ultimately, all these efforts result in strategic outcomes like providing recommendations that foster stronger programs, substantial financial returns or recoveries, and broad deterrence of fraud, waste, abuse, and mismanagement.

OUR STRUCTURE

## AREAS OF RESPONSIBILITY

**The Office of Audit** plans and conducts audits of departmental activities, which include (1) headquarters programs and operations and the activities of HUD's field offices located in 10 regions, (2) hundreds of HUD programs and initiatives, and (3) thousands of contractors and program participants doing business with the Department. The Office of Audit's significant workload is generally divided into four primary categories: performance audits, information system audits, financial audits, and advisory and assistance services.

**The Office of Evaluation** plans and conducts independent assessments of the design, implementation, and results of HUD's operations, programs, or policies. The office provides a flexible and effective mechanism for the oversight and review of Department and agency programs by using a multidisciplinary staff and multiple methods for gathering and analyzing data. It can be used to determine the efficiency, effectiveness, impact, and sustainability of operations, programs, or policies and provide information that is timely, credible, and useful for agency managers, policy makers, and others. The Office of Evaluation is also responsible for data and predictive analytics as well as information technology (IT) evaluations of HUD IT and IT security programs.

**The Office of Investigation** plans and conducts investigations that vary in purpose and scope and may involve alleged violations of criminal or civil laws, as well as administrative requirements. The focus of an investigation may include the integrity of programs, operations, and personnel in agencies at Federal, State, and local levels of government; program, procurement, and grant fraud schemes; mortgage fraud, financial fraud, and whistleblower retaliation; and other matters involving alleged violations of law, rules, regulations, and policies.

**The Office of Legal Counsel** provides independent legal and policy advice to all components of the OIG on a variety of substantive and procedural matters relating to OIG's audit, program evaluation, and investigation activities. The Office of Legal Counsel also represents the OIG in administrative litigation; manages the OIG ethics program, providing training, advice, and financial disclosure reviews; and coordinates OIG responses to Freedom of Information Act and other document requests. The OIG hotline, located within the Office of Legal Counsel, receives, analyzes, and reviews complaints and allegations against HUD programs.

**The Office of Management and Technology** is responsible for developing, implementing, managing, and supporting a strategic plan for OIG that aligns planning, resources, policies, processes, reporting, and performance measures for internal efficiency. It is also responsible for budget and administrative services, human resources, training, program integrity, infrastructure services, and information management. As the public affairs liaison point, this office communicates with the public and the media; and maintains the OIG Web page.

## AREAS OF FOCUS

### CIVIL FRAUD

The OIG's Joint Civil Fraud Division is a blend of audit and investigative staff specializing in civil enforcement to address improper activities aimed at the Department's vital programs. The OIG remains committed to investigating and prosecuting financial and mortgage fraud that harm the programs that our citizenry relies on, the taxpayer who must deal with the effects of the financial problems caused by such inappropriate behavior, and the financial markets that can be impacted negatively as an aftereffect. The OIG plays a crucial role in the Federal financial recovery effort through criminal investigations and civil reviews. The Division is also tasked with uncovering fraud nationwide, investigating qui tam cases, and pursuing civil actions and administrative sanctions against entities and individuals that commit fraud against HUD.

### DISASTER OVERSIGHT

The Department's role has greatly increased over the last decade as HUD has had to deal with disasters and economic crises that have increased its visibility and reaffirmed its vital role in providing services that impact the lives of all of our citizens. Along with the expansion in the Department's role is the increase in the oversight responsibilities of OIG. Disasters and the large amounts of funds needed to help those impacted are an area of focus and challenge for HUD and the OIG. To address the enormous task of oversight, OIG's audit, investigative, and evaluations staff provides a continuing and comprehensive review of the administration and expenditure of funds.
